language setting (all EU member state languages will be implemented)

Welcome to the European database for organic seeds

The database gives seed suppliers the opportunity to offer their services in all EU countries and Switzerland with one login. If you would like to become a provider, simply register and decide in which countries you would like to offer organically propagated seeds.

[You are looking for organic seeds?](#)

You can easily search for species and varieties in different countries using the search fields and contact the supplier. Give it a try!

Funded by LIVESEED

Offer at national level

- amount in kg/tons/unit
- delivery information

Current availability

- Available (green light)
- Not available (red light)
- Archive for each country (e.g. variety no longer listed)

Status feedback from control authority

- Accepted (green) → offer should be displayed at national level
- In process (blue) under revision
- Rejected (red) reasoning for rejection will be forwarded to supplier

Country login to EU-level database

- Control authority or designated body, such as
- Regional authority, control body, database manager, chair of seed expert group, ...
- Several logins possible for the same national account
- Responsibility: revising seed supplier and their seed offer
- Transferring accepted offer to national database
 - via automated programming interface or manual export
